

# Professional Growth Plan

## Looking for Professional Development? “Link to Slide #9”

**I am or I was a Professor at a university/college.  
Can I use my experience towards my PGP plan?**

- Yes, teaching the **same** class during the **same** semester can count one time that semester.
- The **same** class taught in two semesters can count for each semester; more than one time.
- **Different** classes taught during the **same** semester are worth PGP points.
- Courses worth 3 credit hours are worth 45 PGP points.

☒ **Can I use a combination of college coursework and PGPs to renew/convert/professionalize my license?**

-Yes, simply enter college coursework into your Professional Growth Plan with your PGP points by uploading official transcripts that bear the registrar’s signature and the school seal.

-One college credit hour equals 15 PGP points.

☒ **What would be acceptable for PGP points?**

-If currently employed at an Indiana school, consult with the school Administrator as he/she will be approving the PGP plan.

-If NOT currently employed at an Indiana school, ensure your points earned are aligned with professional development that makes you a better Teacher/Administrator/School Service Personnel.

☒ **Is a Professional Growth Plan optional?**

**Yes and No.**

- If you have a two year license and you are renewing for the third time, you will need to either have an approved 90 point PGP or you will need to pass an Indiana Core Assessment test.

-If you are converting your license to the Practitioners license, you have the option to convert with 40 PGP points (Conversion) and two years of educator experience.

-You have the option to use the 90 point PGP (Proficient) to renew or Professionalize and Renew your license.

-  I don't have enough to renew,  
what can I do?
- Insert link to Slide #9**

-  **How do I create a 40 point Professional Growth Plan?**  
**Insert Link**

- DO NOT submit your PGPs until it is closer to the time you need to renew your license!*
